

What's happening in Northern Michigan?

Bellaire, Michigan. There's a revolution going on in the northwoods! They've cut new Alpine ski runs, reshaped some of the old ones, installed lights, cut and 28 kilometers of new cross-country trails, built a fully-equipped ski shop, opened a brand-new cafeteria, and redecorated the entire lodge. Generally, they've created a breathtakingly attractive first-class four season resort here in Northern Michigan, the "new" Hilton Shanty Creek! Nestled in the snow-covered rolling hills of Antrim County, you'll find the winter vacation spot that will thoroughly satisfy the whole family. A highly professional staff of ski instructors, videotaped lessons, NASTAR races, Children's Ski School, and new Hedco snowmaking equipment make winter at Hilton Shanty Creek a season of pleasure. Twenty-eight kilometers of dual-track cross-country trails wind through heavily-forested hills and valleys, and seventeen Alpine ski runs challenge the novice and entice the expert. At day's end, you can relax before a crackling fire, sipping your favorite libation from the well-stocked bar. A quick dip in the heated outdoor pool will refresh you for the delights of the evening to come! Sample the exquisite delicacies of a superb dining room, charmingly enhanced by a "touch of the forest." Enjoy exhilarating top-flight entertainment year-round, and completely unwind to the latest in comedy or popular music.

Total recreation of mind and body, the peace and serenity of the lush northwoods, and the amenities of a sophisticated resort hotel are all here in Bellaire. They've worked long and hard to expand the scope of this superior four-season vacation center, and the results are obvious — at Hilton Shanty Creek there seems to be something for everyone, especially during the snow-filled months of winter, and you'll enjoy every minute of your vacation in this "new" and vitally alive north country hostelry.
