

Good Sport Weather: Week - End Forecast

According to the U. S. Weather Bureau's sports bulletin as issued from Marquette, Escanaba and surroundings will enjoy good sports weather over the weekend.

In the immediate vicinity of Escanaba and Gladstone, skiing conditions are a bit short of ideal. Yesterday, in most places, the snow was a little on the soft side, but the colder weather and snow flurries forecast may improve the slides. The ski tow is operating at Danforth park, here in Escanaba. Both Gladstone ski tows are in operation.

The ice on the Escanaba and Gladstone rinks is smooth and fast.

At Iron Mountain, the snow was packed, ice smooth. At Ishpeming, the snow was heavy and packed, though there was a two-inch fluffy blanket atop. The ski tow is operating.

Munising has a two-inch fluffy blanket over a breakable crust. The ice is smooth.
