

Ski Club

If you have couple of old barrel staves and a little spare time you can enjoy yourself this winter with the Kalamazoo Ski Club.

This is a newly organized unit of both adults and junior members who believe that if you are going to ski you might as well have company in your spills.

Jerry Upham of Central high school is the junior division leader. He says there are a few openings left for memberships. You can call him for details at 2-4924.

The club has built a motor driven ski tow and will also have a certified ski instructor on hand. The skiing will be done on the hills out Douglas avenue, south of the State hospital farms.
