

One Tow Line In Operation For Ski Run

One tow line will be in operation at the Muskegon State Park ski run, it was announced today by President Art Workman of the Muskegon Ski Club. The line will be on the hill that had the popular jump, but Mr. Workman isn't certain the jump will be safe for any but experts.

The two hills that have been cleared, however, are set for skiing, he declared, with plenty of snow for an enjoyable Sunday of sports.

The tow line is expected to be operating this afternoon, and will be set for all day Sunday.
