Jacksonian Urged Irish Hills Winter Sports Nine Years Ago

Onsted - Discussion in the Citizen Patriot editorial columns of the potentialities of winter sports in the Irish Hills area recalls discussion here during an adult education course in retail selling back in 1939. Floyd Johnson, now Jackson city commissioner and division merchandise manager of the L. H. Field store, recommended development of skating, skiing and coasting during one of his talks as instructor for the course. The Citizen Patriot reported this week that a ski slide and tow rope are operating on Prospect hill near Cambridge Junction.

A copy of the records of the adult education course of 1939 shows that Mr. Johnson then said:

"A few years ago I stood in Grand Central station, New York, and saw trainloads of people leaving on special trains. These people were dressed in expensive outdoor clothing and carried all sorts of snow equipment. I wondered if Michigan folk would ever do the same sort of thing. If you had been at Grayling a few Sundays ago you would have seen five special trains pull in. That was only Grayling. Probably Cadillac, Traverse City and other places had at least one each.

"As I drive to Onsted and also through the Irish Hills I wonder how long it will be before someone is going to develop an immense skating pond in this area, and snow slides and ski jumps. I realize the possibility of there not being snow at the right time. I also realize that, if we draw a circle with a 75-mile radius, we take in Detroit, Toledo, Ann Arbor, Jackson and Adrian. I realize that everyone of these points is connected by good highways with

Onsted and that those highways are kept open all winter."

Mr. Johnson left it to the people of Onsted as to whether this community alone should tackle the promotion of winter sports or should invite other villages in this area to join in the project. Since then there has been occasional discussion of the idea, but the war years put a quietus on any plans except for the ski run on Prospect hill, which has not been widely publicized.

Rochester Lady Now Wears Dress 6 Sizes Smaller

"I have been using Rennel Concentrate and have lost 30 lbs.," writes Mrs. R. D. Congdon, 3631 Decker St., Rochester, Michigan. "I am 34 years old and was wearing a size 44 dress and now wear a size 38. I find Rennel is pleasant to take and plan to continue using it."

Hundreds of others have obtained similar relief from the social and physical discomfort of being overweight. Rennel is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just go to your druggist and ask for 4 ounces of liquid Rennel. Pour the contents into a pint bottle—add enough grapefruit juice to fill the bottle. Then take just two tablespoons a day. That's all there is

to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles; just return the empty bottle to the manufacturer for your money back. You need never know a hungry moment while taking Rennel—no starvation diet—no printed diet list to buy—no vitamins to fortify you against weakness while going hungry, for you WON'T be hungry. Don't be switched to another product. Insist on and obtain genuine Rennel.
