

Hill on Brandon Road Will Be Ready Sunday

"Ski Hill," situated on the old Brandon road and used in recent years for skiing and tobogganing, will be in condition for use of the public Sunday, it was announced today.

WPA workmen put the ski run in shape. An endless rope and a motor supplied by Dr. H. W. Zellhoefer will be available for use.

There is a lighting system which can be made available for skiing and tobogganning at night for those who wish to phone Dr. Zellhoefer or Barney Boos, who is at the East Side recreation center.
