

Ski Hills Listed In Directory

MADISON — An invitation to "Ski Wisconsin" is extended in a winter sports area directory of that name now being distributed by the Wisconsin Conservation Department.

Basically, "Ski Wisconsin" is the same directory produced last winter by the department's Recreational Advertising Section. An insert, listing several additions and changes, brings the directory up to date.

Added to the list of ski hills this season are three areas operated by local ski clubs, but open to non-members. These are Fox Hill, near Slinger, operated by the Milwaukee Ski Club; North Hills, near Fort Atkinson, operated by North Hills Ski Club, and Ullr Ski Area, near Plymouth, which is run by Milwaukee's Ullr Ski Club.

Woodside Ranch, near Mauston, is another addition to the list. Skiing and skijoring, riding skis behind a horse, have been added to the recreational program at Woodside.
